

The **Pennsylvania Friends of Agriculture Foundation** was created in 1986 to help meet the needs and concerns of the agriculture industry. The Foundation is dedicated to assisting in providing education, information and research that will provide the continued well being of all persons directly engaged in agriculture or related enterprises. The Foundation brings together agribusiness leaders to raise funds for solving problems facing agriculture and the agriculture community.

In the nearly 28 years of the Foundation's existence, we are in our 22nd year of having the golf outing. Thank you for joining us. And remember that agriculture is an industry that feeds you and is, therefore, worth golfing for!

*Just like agriculture built,  
sustains and maintains our great country,  
your interest in supporting our Foundation  
allows us to build, sustain and maintain our programs.*

Our **Mobile Ag Ed Science Labs** - traveling to elementary or middle schools across Pennsylvania to teach the science of agriculture - is a popular, effective and growing program; our **Ag in the Classroom (AITC)** teachers' workshop continues to inspire educators to make a difference for the advancement of agriculture in their own classrooms; our **scholarship funds** award bright college prospects the opportunity to pursue agriculture studies at Pennsylvania State University or Delaware Valley College and the **Richard W. Newpher Farm Bureau Endowed Scholarship Fund** at the University Of Pennsylvania School of Veterinary Medicine is aimed at encouraging students to pursue veterinary careers in large animal agriculture.

*Thank you for your support of our  
Richard Prether 22<sup>nd</sup> Annual  
Pennsylvania Friends of Agriculture Foundation  
Golf Classic!*

“**A**griculture, is our wisest pursuit, because it will in the end contribute most to real wealth, good morals and happiness.”
